

## HELPING THE COMMUNITY FIGHT CORONAVIRUS

### OVERVIEW:

After an employee at an ACE Hardware store tested positive for COVID-19 (Coronavirus), the facility owner quickly took initiative and halted operations, seeking out disinfection to help the store re-open as soon as possible. As a result, their local TSN member, Flood Department, was called to come in and immediately apply powerful SteraMist disinfection to the facility.

### SCOPE OF WORK:

**AREA TO BE TREATED:** 42,500 ft<sup>2</sup>

**PRODUCT USED:** Surface Unit

**STERAMIST<sup>®</sup> TECHNICIANS:** 5

**BIT<sup>™</sup> SOLUTION:** 9 Gallons

### MEETING THE NEED:

Without any hesitation, the Flood Department team began working, primarily focusing on the treatment of retail spaces (15,000 ft<sup>2</sup>), rental and storage areas (7,500 ft<sup>2</sup>), and service areas and stock rooms (20,000 ft<sup>2</sup>).

### THE RESULT:

Flood Department was quickly able to apply SteraMist<sup>®</sup> to the facility in the space of just under 8 hours, validating the disinfection and allowing business operations to resume once more. The staff were extremely grateful for the turnaround and efficacy, with the owner stating "Their response was incredible... Thanks for the great customer service and help protecting our community and employees at Ace".
